Attorney

Mayrav Bond

Mayrav Bond practices in the areas of estate planning, asset protection, and strategic tax solutions for high-net-worth individuals and families. She has expertise in minimizing estate, gift, generation-skipping, and income tax exposure while navigating complex multigenerational estate plans. Mayrav often represents numerous members of the same family and, as a result, regularly synthesizes different family members' estate plans across multiple generations.

A large part of Mayrav's practice focuses on business succession planning, the preparation of wills and revocable trusts, and where appropriate, the implementation of limited liability companies, family limited partnerships, and sophisticated irrevocable trusts, such as spousal lifetime trusts, asset protection trusts, grantor retained annuity trusts, life insurance trusts and dynasty trusts.

Mayrav is adept at charitable planning and navigating intricate IRS and local tax authority matters. Mayrav frequently serves as an advisor to corporate fiduciaries, trust companies, and leading financial institutions.
